Used to prevent hydration of the stromal bed during laser ablation.

sterile, disposable

packaged 1 drain per pouch

20 pouches per box

K20-5021

Instrument Wipe and Corneal Light Shield

Katena Instrument Wipes are sterile sponges for wiping delicate instrument tips during microsurgical procedures. When moistened, the non-shedding sponge becomes very smooth, soft and pliable.

A free Corneal Light Shield is included with each Instrument Wipe. When placed on the cornea, the moistened light shield prevents potentially harmful light rays from reaching the retina.

Katena Instrument Wipe and Corneal Light Shield

sterile, disposable

packaged one (1) wipe and one (1) corneal shield
per pouch, 20 pouches per box

K20-5040
